

Website Disclosure:

Millington Financial Advisors ("MFA") is a registered investment advisor with the U.S. Securities and Exchange Commission ("SEC"). Registration with the SEC or any state does not imply a certain level of skill or training. MFA provides investment advisory services, tax planning and preparation services, and accounting services to individuals, families, and businesses.

Investment Advisory Services

All investment advisory services are provided pursuant to a written agreement and are based on the individual needs and objectives of each client. Investment recommendations and strategies are based on a variety of factors, including but not limited to, the client's financial situation, risk tolerance, investment goals, and other relevant information provided by the client.

Millington's advisory services are provided for a fee as outlined in the firm's Form ADV Part 2A ("Firm Brochure"), which is available upon request or by visiting the SEC's Investment Adviser Public Disclosure website. No investment strategy can guarantee a profit or protect against loss in periods of declining values. Past performance is not indicative of future results.

Tax Services

Millington also offers tax planning and preparation services. These services are separate from its investment advisory services and may be subject to different fee arrangements. Clients are under no obligation to use Millington for both advisory and tax services. Tax services may be offered by the same personnel providing advisory services, which could present a potential conflict of interest. These conflicts are disclosed and managed in accordance with Millington's compliance policies and procedures.
